# Words from the Chair:

Suffolk Open Studios holds an annual event every June and we're back for 2023, with so many artists, makers and galleries across the county ready to welcome you into their spaces and reveal what they are creating!

The event gives you the opportunity to meet the artist, maker or gallery owner, see what goes on in working studios, as well as discover exciting new artworks you've never seen before. The studios and galleries are free to visit and this brochure contains all you need to know about everyone taking part, or you can check out our App, which will help you discover our creatives in a new way.

"Creativity is contagious, pass it on." – Albert Einstein

This is what our members aspire to do, by opening the doors of their creative spaces and welcoming visitors, they will

display their artworks, showcase their talents! We have so many artists taking part with a range of specialisms: ceramics, painting, drawing, jewellery, woodwork, glass, mixed media and so much more. so go and explore what our artists have to offer over the weekends of June.

I want to take this opportunity to say a big thank you to all the artists, makers and galleries taking part in this year's event – it cannot be held without these talented people. And to all the members who volunteer their time to help get the event ready, without them Suffolk Open Studios wouldn't be possible.

It is a pleasure to be a part of this organisation and I am extremely proud of everything we've achieved to be able to run such a fantastic open studio event for you to enjoy. So however you plan your visit, on behalf of everyone at SOS, I hope each and every one of you gets a chance to see some creative, imaginative and exciting art!

But that is not it...our members are creating, making and exhibiting all year round so keep up to date with everything that is going on by signing up to our newsletters, downloading our App or following us on social media.
